(rev. 6/2026)

APPLICATION FOR PURCHASE

Return to: Garthchester Realty Associates
440 Mamaroneck Ave., S-512
Harrison, NY 10528

INSTRUCTIONS

1. Please complete all sections of the application. If a section is not applicable to you, so state.

2. Purchaser must provide one (1) collated copy of the following documents prior to the Board considering the application. ***Please do not bind, staple or print double-sided.***
 - a. Fully completed application with all attached forms signed.
 - b. A signed copy of your last two (2) years Federal tax returns with all schedules attached. Also a copy of all W-2's submitted with the tax return, as well as last two pay stubs.
 - c. Copies of latest bank statements.
 - d. Two (2) personal letters of reference and two (2) professional letters of reference for each applicant.
 - e. Letter of reference from your current employer stating annual salary and length of employment.
 - f. Letter of reference from current landlord or managing agent.
 - g. Fully executed contract of sale, together with any riders thereto.
 - h. A copy of your bank mortgage commitment if financing is being obtained.

The information and forms provided on this website are subject to change and may, therefore, not be the most current versions. Accordingly, users of this site are advised to check the date of the forms to make sure it is the most current. Garthchester Realty hereby disclaims responsibility for the reliance by any users of this site on the information contained herein without independent verification of its accuracy.

3. The application, documents and a non-refundable application fee, payable to **Garthchester Realty Associates**, in the sum of Four Hundred Fifty (\$450.00) Dollars **plus** Fifty (\$50.00) Dollars **per person** (for a credit check) must accompany your application. These fees are non-refundable.
4. A non-refundable application fee, payable to **Longacre Gardens Corp.**, in the sum of One Hundred (\$100.00) Dollars must accompany your application.
5. The Board reserves the right to request additional information prior to considering your application.
6. By submitting this application for the Board's consideration, you are representing that all statements contained therein are true to the best of your knowledge and are authorizing the Board to verify all statement, including the Board obtaining a current credit report.
7. Where there is more than one purchaser, the information requested is to be answered by all purchasers.
8. The purchaser(s) and all the persons to reside at the residence will be required to attend a personal interview with the members of the Admissions Committee of the Board of Directors prior to the committee's moving on the application

***NO APPLICATION ACCEPTED ON FRIDAYS AFTER 12PM.**

LONGACRE GARDENS CORP.

APPLICATION TO PURCHASE SHARES OF THE CORPORATION

NOTICE

Article II of Chapter 700 of the Laws of Westchester County, known as the Westchester County Fair Housing Law, prohibits discrimination in housing accommodations on the basis of a person or persons' actual or perceived race, color, religion, age, national origin, alienage or citizenship status, ethnicity, familial status, creed, gender, sexual orientation, marital status, disability, source of income, or status as a victim of domestic violence, sexual abuse, or stalking.

Section 700.21-a of the Westchester County Fair Housing Law governs applications to purchase shares of stock in cooperative housing corporations, and applies to this application. Under this section, the cooperative housing corporation is required to comply with the following deadlines:

1. Within fifteen days of the receipt of this application, the cooperative housing corporation must either acknowledge that it has received a complete application, or shall notify you of any defect in the application.
2. If you are notified of any defect in the application, within fifteen days of the receipt of the corrected application the cooperative housing corporation must either acknowledge that it has received a complete application, or shall notify you of any defect in the application.
3. Within sixty days of receipt of a complete application, the cooperative housing corporation must approve or deny your application, and provide written notice thereof.
4. If your application is denied, the cooperative housing corporation is required to provide notice to the Westchester County Human Rights Commission, including your contact information.

LONGACRE GARDENS CORPORATION

141 North Broadway | White Plains NY 10603

FOR PURCHASE ONLY

Re: Longacre Gardens Corp.

Apt.: # _____

Dear Sirs:

I have read the Proprietary Lease of Longacre Gardens Corp. and will abide by all the rules and regulations as set forth. Specifically, any apartment construction/renovation plans will be submitted to the cooperative's managing agent for approval prior to the commencement of any work.

I further understand it is the responsibility of the shareholder to maintain the tiles and grouting in the bathroom (s) in such a manner that no water leaks into the apartment below or the common areas of the building.

MOVE IN/OUT & DELIVERY PROCEDURES: 8am – 4pm (No Weekends or Holidays)

Please be advised that all residents must arrange your move-in/out & deliveries with Wyatt Teitelbaum at 914-725-3600 ext. 1936 or via email at wteitelbaum@garthchester.com.

Please contact Michele at least **ONE WEEK** before your move-in/out or scheduled delivery date to be sure that date is available. A **move-in** deposit in the amount of **\$500** is required ~ Check payable to: **Longacre Gardens Corp.** IF you are **moving out**, a move-out deposit in the amount of **\$500** will be added to your account.

In addition to your deposit, you must provide a **certificate of liability insurance (COI)** from your moving company if you have professional movers. The COI information is as follows and required for ALL MOVES AND/OR DELIVERIES:

CERTIFICATE HOLDER:

Longacre Gardens Corp.
c/o GARTHCHESTER REALTY ASSOCIATES
440 Mamaroneck Ave., S-512
Harrison, NY 10528

DESCRIPTION of OPERATIONS/ADDITIONAL INSURED:

1. Name of Resident, Address & Apt.#
2. **Longacre Gardens Corp.**
3. GARTHCHESTER REALTY ASSOCIATES

****Please be advised without the required form(s), the move and/or delivery WILL NOT BE PERMITTED.****

If you are not hiring professional movers, insurance is still required. Please fill out a Hold Harmless Form provided on the Garthchester Realty Associates @ www.garthchester.com and submit a copy of your Homeowners Insurance (declaration page) to Michele at Garthchester Realty Associates.

Once the move-in is completed, you must contact Michele in order to have your deposit refunded, if applicable. Once we verify with the Resident Manager that there was no damage, your refund request will be submitted to our bookkeeper and mailed to you within **10 business days**. Move-out deposits will be refunded at the your closing.

Thank you for your anticipated cooperation.

Sincerely Yours,
Garthchester Realty Associates

Longacre Gardens Cooperative

House Rules

Sept 2024

General:

1. Residents cannot make any disruptive noises from the hours of 10:00 p.m. to 8:00 a.m.
2. No loud music or musical instruments are to be played on Cooperative grounds.
3. Contractors for home renovations are allowed to work Mon to Fri, 8:30 a.m. to 5 p.m.
4. No ball playing on Cooperative grounds.
5. No articles shall be placed in the hall of entrances, nor shall anything be hung or shaken from the doors and windows, or placed upon the window sills of the building.
6. No clothing or personal belongings shall be draped or hung-over bushes, shrubs, railings, doors or windows.
7. No sign, notice, advertisement or illumination shall be allowed on, or at, any window or any part of the building.
8. All belongings of residents must be brought inside before nighttime.
9. No lawn furniture, toys, bicycles, brooms, gardening equipment, or any personal items are to be left on co-op grounds or stoops unattended for extended periods of time or overnight. When not in use these items must be properly stored away in the residents' units or garages. These items cannot be stored in the shared garden beds or on the front stoops.
10. All items found on the grounds not belonging to the cooperative will be removed and disposed of and subject to Administrative Fees.
11. Residents are allowed to plant their own flowers or small bushes in their garden beds. However, anything planted by residents will become the property of Longacre Gardens and must remain in the garden beds upon sale of the unit or relocation of the resident.
12. Barbeques are permitted, but they must be stored away properly. Those living in "the circle" area may store their barbeques in the "barbeque pit" between units 27 & 29, or in the patio area next to the dog run. Other residents may store their barbeques **out-of-sight** along the **sides** of their buildings. Residents without those 2 options may place their barbeques **discretely** in their garden beds against their building, away from their front stoops, and hopefully camouflaged by bushes. All barbeques must be properly covered with a barbeque cover.
13. All barbeques must be stored away from Nov 1st to April 1st.
14. All gas dryers are required to be professionally installed by a licensed and insured contractor and be registered through Garthchester Realty Corp. by emailing Michele Liddy at michele@garthchesterrealty.com. Since Longacre Gardens supplies the gas for the dryers, a \$25 monthly utility fee is charged and itemized on the monthly maintenance invoices.
15. All personal items must be removed from the front stoops and garden beds from Nov 1st to April 1st.
16. The floors of each apartment must be covered with rugs or carpeting and padding, or equally effective noise reducing material, to the extent of at least 80% of the floor area of each room, including staircases, excepting only kitchens, pantries, closet and bathrooms.

17. Resident shall keep all windows of the apartment clean and covered with adequate window treatments, such as drapes, curtains, and blinds. The Co-op has the right to clean windows and window treatments at the shareholders expense if shareholder is found negligent.
18. The co-op and any contractor or workman authorized by the Board of Directors may enter any apartment at any reasonable hour of the day for the purpose of inspecting, controlling or exterminating vermin, insects, or other pest, or for plumbing, electric, and building maintenance issues.
19. If a resident suspects an infestation of bugs or rodents, they must inform the co-op immediately and not try to remedy the situation themselves. Some bug infestations require professional treatment and cannot be remedied without professional help.
20. All exterior red doors must be closed during the heating season, during precipitation year-around, overnight and whenever you're not at home for security reasons.
21. The new exterior front doors are metal. Nothing should be screwed, nailed, glued or attached to the exterior front doors. Shareholders will be held responsible to replace any door that they damage at a cost of approximately \$1,000.
22. Shareholders must refrain from door decorations, or any decorations that may cause possible damage to the doors, or any cooperative property.
23. Holiday lights can be put up no earlier than the weekend preceding Thanksgiving and must be removed no later than the weekend following New Year's Day. The board retains the discretion to remove any decoration deemed to be in bad taste.
24. Used Christmas Trees should be placed with the bulk garbage pickup no earlier than a Wednesday night preceding a Thursday pick up.
25. Subletting an apartment will only be considered by the Board after the shareholder has resided in the unit for a period of 2 years, and will only be granted for "Hardship" situations such as military deployment, temporary job relocation, or during challenging real-estate markets.
26. Lithium Batteries – because of the risk of fire, all mobility devices using a Lithium battery are banned from Longacre Gardens. This includes: Ebikes, Scooters and Hooverboards. Damage caused by a Lithium Battery will be the responsibility of the shareholder to remedy.
27. White Plains law requires anyone under the 14 years of age to wear a helmet while on a bicycle, scooter, or skateboard. Please keep the law in mind while using these items and be mindful of your neighbors while riding to ensure the safety of residents. Additionally, playing is not permitted in the driveway and/or parking lots at any time.

Parking/Garage Rules:

1. All parking is assigned by the Board of Directors.
2. One vehicle per outdoor parking space, including motorcycles; no double parking.
3. No parking in front of garages or fire hydrants, in fire lanes or in any zone marked "No Parking". Violators will be subject to Administrative Fees and towing at their expense. Repeated violations will result in the revocation of resident's parking privileges and reassignment of their parking spaces to the next resident on the wait list.
4. Residents must park head-into their parking spaces to avoid exhaust being blown into residents' homes and to avoid burn spots on the lawn.
5. Shareholders will be held responsible for their guests and for their Administrative Fees.
6. Garage doors must be closed and locked at all times. Longacre Gardens is not responsible for vandalism, lost possessions, or repairs to the optional electric garage door openers.
7. No car washing or vehicle maintenance on the premises.
8. During snowfalls, if you see or hear the snow plow in the driveway you should move your car in order for the plow to properly clean the parking spaces.
9. All vehicles in outdoor spaces and in garages must be registered, inspected and insured.
10. The garage space must be used to park registered vehicles. At no time may a garage be used **solely** for storage purposes. Any resident who uses the garage solely for storage purposes will have the garage space revoked upon 30 days of notification.
11. When any outdoor parking space or garage is relinquished, the space will revert to the Cooperative for reassignment.
12. Any outdoor parking space or garage is immediately deemed relinquished upon sale or rent of the unit and/or the occupant moving out of the cooperative.
13. Parking/garage spaces shall not be reassigned, sold or sublet by shareholders.
14. As per White Plains Law, no commercial vehicle can be parked in an outside parking space. This includes any vehicle with advertisements or signage.
15. Outdoor parking spaces or garages may be terminated and/or reassigned by the cooperative at any time in sole and absolute discretion of the Board of Directors.

Rules for Pet Owners:

1. All new dogs are subject to Board approval. Any dog not approved by the Board of Directors will be subject to a \$300 Administrative Fee and possible removal from Longacre Garden's property.
2. Dogs may be restricted according to size, weight, or breed.
3. The following breeds are not allowed on Longacre Garden's property: Pit-bulls, Rottweiler's and Doberman Pinchers.
4. Dogs must be leashed at all times while on Longacre Garden's property, where leashes may not extend beyond eight feet in length according to White Plains law.
5. Dog walkers should always be considerate of their neighbors' privacy and not approach the ground floor windows of other residents, or allow their dogs in other residents' garden beds. Dog walkers should remain on the sidewalks and walkways when walking dogs.
6. Dog waste must be picked up and disposed of properly at all times. Failure to do so will result in an initial fee of \$100, thereafter \$200. Repeated violations may result in the revocation of resident's parking privileges. Dog waste may never be discarded in any sewer or storm drains. Such violations will receive a \$300 Administrative Fee. Shareholders and residents are responsible for their dog walkers.
7. Dogs may never be tied or chained and left unattended anywhere on the complex.
8. Excessive dog barking will not be tolerated.
9. No shareholder or subtenant may own more than one dog, or two cats, at any given time. There is a charge of \$25 per month for all dogs owned by shareholders or their subtenants. There is no charge for cats at this time.
10. All dogs must be licensed through the City of White Plains.
11. Dog sitting may not exceed 2 weeks. In the event that a guest dog needs to exceed 2 weeks, residents must receive written approval prior to the arrival of the dog and will incur the monthly dog fee.
12. If any dog poses a threat to personal safety or is an excessive disturbance to any shareholder, the dog will be subject to review by the Board of Directors and may be subject to removal.

Garbage Pickup and Removal:

1. Small household garbage and recycling, up to a 13-gallon bag, is picked up Monday through Friday from 6:00 to 8:30 a.m. There is no garbage pick-up on weekends or holidays.
2. No garbage is to be placed on the stoops outside your door; garbage must be placed on the grass next to the sidewalks in adequate garbage bags.
3. All bags must be tied up securely before being put out for pick-up.
4. Boxes must be flattened and placed in the dumpster that is used for boxes.
5. Cans, bottles, and jars must be rinsed clean prior to disposal in the recycling bin.
6. Bulk items may be brought to the curb by the lowest driveway Wednesday nights for Thursday pick-up. Call the superintendent (914-949-0437) to discard electronics.
7. Littering on the grounds is strictly prohibited. This includes cigarette butts, food for animals, and dog waste. Garbage and dog waste may never be discarded in any sewer or storm drains. Violators will receive a \$300 Administrative Fee.
8. According to the City of White Plains, all mattress and box springs must be fully encased with a sealed plastic bag or barrier before disposal. Plastic bags for disposal are available at local hardware stores or at U-Haul moving (914-949-2525).
9. According to the City of White Plains, dumpster lids must remain closed at all times. The fine from the city is \$2,500 which will be passed along to the offending resident.

Administrative Fees:

1. Unless otherwise noted, first offense is \$50.
2. Second offense is \$100.
3. Third and subsequent offenses are \$100 plus revocation of parking privileges.

Garthchester Realty

How to Make Monthly Maintenance Payments:

(1) ACH, E-Check or Credit Card via our website:

Payments via the website - www.garthchester.com - will require you to register and setup an online user profile. You will need to input your **Resident Account Number**. *The statement sample below indicates how to locate your Resident Account Number.* (an administrative fee will be charged for credit card payments)

(2) Bill Pay Account via Your Bank:

Please note the bill payment service provided by your bank produces a manual check that is sent directly to NCB's lockbox at the address below. *Please initiate the payment 3-5 days prior to the due date to ensure the payment will be processed in a timely manner. Please indicate your Resident Account Number on the memo line (Ex. XX/XX).*

(3) Mail a Check payable to:

Name of Property
Garthchester Realty Associates
PO Box 5089
White Plains, NY 10602-5089

SAMPLE STATEMENT & ACCOUNT etc.

BOB SMITH
123 MAIN STREET #1D
SCARSDALE, NY 10583

4. You will receive an email shortly thereafter requiring you to click on the 'Complete your activation' button to finish the process.

It couldn't be easier! Simply visit www.garthchesterrealty.com to register

* Registrations after the 18th of the month may take effect the following month

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Seller's Disclosure

(a) Presence of lead-based paint and/or lead-based paint hazards (check (i) or (ii) below):

(i) _____ Known lead-based paint and/or lead-based paint hazards are present in the housing (explain).

(ii) _____ Seller has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

(b) Records and reports available to the seller (check (i) or (ii) below):

(i) _____ Seller has provided the purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing (list documents below).

(ii) _____ Seller has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Purchaser's Acknowledgment (initial)

(c) _____ Purchaser has received copies of all information listed above.

(d) _____ Purchaser has received the pamphlet *Protect Your Family from Lead in Your Home*.

(e) Purchaser has (check (i) or (ii) below):

(i) _____ received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards; or

(ii) _____ waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Agent's Acknowledgment (initial)

(f) _____ Agent has informed the seller of the seller's obligations under 42 U.S.C. 4852d and is aware of his/her responsibility to ensure compliance.

Certification of Accuracy

The following parties have reviewed the information above and certify, to the best of their knowledge, that the information they have provided is true and accurate.

_____ Seller	_____ Date	_____ Seller	_____ Date
_____ Purchaser	_____ Date	_____ Purchaser	_____ Date
_____ Agent	_____ Date	_____ Agent	_____ Date

Protect Your Family From Lead in Your Home

June 2017

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

1

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

2

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention-deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

3

5

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

4

6

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A **lead-based paint inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A **combination inspection and risk assessment** tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

7

9

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD.

Other Sources of Lead

Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

Important Steps You Can Take to Reduce Lead in Drinking Water

- Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- Regularly clean your faucet's screen (also known as an aerator).
- If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800-424-LEAD.*

Call your local health department or water company to find out about testing your water, or visit epa.gov/safewater for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

13 *Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

Renovating, Repairing or Painting a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects, visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Other Sources of Lead, continued

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- **Old toys and furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.*
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon**," used to treat an upset stomach.

* In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

For More Information

The National Lead Information Center

Learn how to protect children from lead poisoning and get other information about lead hazards on the Web at epa.gov/lead and hud.gov/lead, or call **1-800-424-LEAD (5323)**.

EPA's Safe Drinking Water Hotline

For information about lead in drinking water, call **1-800-426-4791**, or visit epa.gov/safewater for information about lead in drinking water.

Consumer Product Safety Commission (CPSC) Hotline

For information on lead in toys and other consumer products, or to report an unsafe consumer product or a product-related injury, call **1-800-638-2772**, or visit CPSC's website at cpsc.gov or saferproducts.gov.

State and Local Health and Environmental Agencies

Some states, tribes, and cities have their own rules related to lead-based paint. Check with your local agency to see which laws apply to you. Most agencies can also provide information on finding a lead abatement firm in your area, and on possible sources of financial aid for reducing lead hazards. Receive up-to-date address and phone information for your state or local contacts on the Web at epa.gov/lead, or contact the National Lead Information Center at **1-800-424-LEAD**.

Hearing- or speech-challenged individuals may access any of the phone numbers in this brochure through TTY by calling the toll-free Federal Relay Service at **1-800-877-8339**.

Consumer Product Safety Commission (CPSC)

The CPSC protects the public against unreasonable risk of injury from consumer products through education, safety standards activities, and enforcement. Contact CPSC for further information regarding consumer product safety and regulations.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).

and Codes

Fire Prevention
and Control

New NYS Law Requires Smoke Alarm Upgrades by April 1, 2019

Effective April 1, 2019, a new NY State law requires all **NEW** or **REPLACEMENT** smoke alarms in New York State to be powered by a 10-year, sealed, non-removable battery, or hardwired to the home.

This does not affect your currently installed smoke alarms

You don't need to replace alarms that are currently in your home or apartment - but any that you replace need to be 10-year battery powered or hardwired.

Important to note, smoke alarms have an estimated life of around 10 years before they become unreliable.

Breakdown of the new smoke alarm requirements

According to NYS Law 399-ccc: "It shall be unlawful for any person or entity to distribute, sell, offer for sale, or import any battery operated smoke detecting alarm device powered by a replaceable or removable battery not capable of powering such device for a minimum of ten years."

Homeowners and landlords must upgrade their smoke alarms before selling or renting homes and apartments in New York State.

While these 10-year smoke alarms have a larger upfront cost than traditional alarms powered by replaceable batteries (approximately \$20 per unit) the lack

of yearly battery changes makes them cheaper over the life of the device.

As with ALL smoke alarms,manufacturesrecommends that the 10-year sealed smoke alarms still be tested at least twice each year using the button on the front of the unit to ensure they are working properly.

Some Frequently Asked Questions:

Do I need to replace the alarms I have installed already?

You are NOT required to immediately replace your current smoke detectors, but any that are replaced or added after April 1st are required to be 10-year battery powered or hardwired. After this date, traditional removable battery smoke alarms will be unavailable for purchase in NY State.

Are they more expensive than non-sealed alarms?

Up front? Yes. In the long term? No. Most 10-year sealed smoke alarms range in price from roughly \$20-\$30, making their initial investment higher than a non-sealed alarm, but non-sealed alarms require annual battery changes. The cost of these replacement batteries average \$38 over their 10-year life span, meaning they ultimately cost more than the sealed version.

Do they really last 10 years?

Yes, they do, the sealed lithium battery (included) will never have to be replaced throughout the life of the alarm, giving you a decade of peace of mind even in the event of a power outage

Will I activate the alarm when I'm cooking something?

No. There are 10-year sealed alarms specifically designed for the kitchen with

advanced sensors that can tell the difference between cooking smoke and real fire.

Why did the law change to require these upgrades?

The dangerous habit of disabling or removing smoke detectors after an accidental alarm while cooking is a major part of why this new legislation went into effect, so alarm manufacturers considered this issue in the design of 10-year sealed alarms. You are very likely to experience less nuisance alarms than you did with your traditional battery alarm.

Are 10-year sealed smoke alarms better than hard-wired smoke alarms?

There are advantages to both systems. Hard-wired smoke alarms tie into your home's wiring and require professional installation, but generally do not require battery changes unless they feature a backup battery. 10-year sealed battery-only alarms are simple to install, and they work during a power failure. All smoke alarms have a life span of 10 years, sealed or non-sealed, and should be tested on a regular basis. When the battery wears out in a 10-year sealed alarm, the entire unit must be replaced, which helps prevent outdated units from staying in operation.

What about landlords and their rental properties?

10-year sealed alarms offer security and convenience to landlords, who are legally required by New York State to provide smoke detectors in their rental properties. The tamper-proof design of these alarms prevents tenants from removing the batteries due to nuisance alarms, or to use the batteries for another purpose. The 10-year lifespan of these lithium batteries means fewer changes and fewer equipment updates. Overall, there is a lesser chance of equipment failure in the event of a fire
